REFERENCE LETTER

Mr. Vitalii Popov, [redacted] was employed at our company, Infineon Technologies Dresden AG & Co. KG, in the period from 15.09.2025 to 30.09.2026.

Infineon Technologies Dresden AG & Co. KG is one of the largest development and manufacturing sites of Infineon Technologies AG with more than 3,900 employees. The Dresden plant produces high-quality chips with complex manufacturing technology based on 200 and 300 mm silicon wafers for innovative automotive electronics, security and smart card applications as well as for power and sensor systems.

From 15.09.2025 until 30.09.2026, Mr. Popov was responsible for the following tasks as a working student in the "Finance - Frontend (Dresden) - Legacy" department of the "Finance" division:

- Building a full-stack Parking Guidance System (backend and frontend), delivering €480k in cost savings compared with market alternatives
- Embedding a computer vision model on an onboard device in C
- Building a barrier control application used by 8,000 users, including 3,000 monthly active users (MAU)
- Participating in a hackathon to change internal risk management processes
- Achieving first place in the thin[gk]athon with AI for predictive maintenance of a conveyor belt

Mr. Popov possesses very good knowledge. He was in a position to aptly grasp even difficult situations straight away and to quickly find the right solutions. Special mention must be made of his strong commitment and his personal initiative. Mr. Popov stood up to even a heavy workload at all times. Special mention must be made of his good power of judgment. Mr. Popov always worked conscientiously and reliably. Furthermore, he worked independently, reliably and efficiently, and found optimal solutions. His performance met with our full approval at all times and in all respects.

His personal conduct was always impeccable. Mr. Popov was valued among managers and colleagues.

We would like to thank Mr. Popov for the excellent cooperation and wish him continued success and all the best personally for his studies and future career and life.

Infineon Technologies Dresden AG & Co. KG

Dresden, 30.09.2026

i. A. Jakeline Ibbotson
